

# Lullaby

Unlike Pluto

Maybe I am gone  
Maybe I am gone  
But you couldn't see  
Liars away  
Memories fade  
Can't remember your face

And it's like you never noticed  
Never had a chance to hold it

Just sing your lullabies, lullabies  
Put me to sleep  
And with these lullabies filled with lies  
Go and leave me  
The miles turn to silence  
Where years were learned to forget

Crazy how life can just move on  
It's a lot to hold on (on)  
Granted a song  
They played all long  
I can remember the pace

You said you combat one day  
I guess I'll exit last stage

Just sing your lullabies, lullabies  
Put me to sleep  
And with these lullabies filled with lies  
Go and leave me  
The miles turn to silence  
Where years were learned to forget

Lu-lu-lullabies  
Lu-lu-lullabies  
Lu-lu-lullabies  
Lu-lu-ohoh-woh-oh

Wasted time  
The years turn to dust  
Whatever once shined turned to rust  
And still keep pretending  
Nothing has changed  
But oh we're not the same  
Time doesn't care what you went through  
It moves like nothing's changed

Just sing your lullabies, lullabies  
Put me to sleep  
And with these lullabies filled with lies  
Go and leave me  
The miles turn to silence  
Where years were learned to forget

Lu-lu-lullabies  
Lu-lu-lullabies  
Lu-lu-lullabies

Lu-lu-ohoh-woh-oh
