

More Than I Remember You

Unlike Pluto

The hardest part is heavy on my mind
The years are gone but my mind still rewinds

I don't wanna go
Go, go, go 'cause it'll kill me
I'm losing what I know
Go, go, go get a memory

I miss you more than I remember you
I miss you more than I remember you
It hit me in the head, I'll forget when I'm dead
I miss you more than I remember you
I miss you more than I remember you

Like a dream that's twisted on its head
Speeding down memory lane never helps

And I don't wanna go
Go, go, go 'cause it'll kill me
I'm searching for shelter
Inside of my past

I miss you more than I remember you
I miss you more than I remember you
It hit me in the head, I'll forget when I'm dead
I miss you more than I remember you
I miss you more than I remember you

I don't forget, I love the regret
I'm not a mess, I shed all the stress
Rekindle a path that I know
I can't find a reason, I know that

I miss you more than I remember you
I miss you more than I remember you
It hit me in the head, I'll forget when I'm dead
I miss you more than I remember you
I miss you more than I remember you
