

## New Life, Who Dis?

Unlike Pluto

At the moment I'm gaining some steam  
A stranger arrives and knocks on my door  
He congratulates me and suggests  
That I should let him come and sit aboard

New life, who dis?  
I don't reminisce  
New life, who dis?  
I don't reminisce

For years I was broke  
My life was a joke  
And I don't recall you helping  
I fought every day  
Clawed back from the grave  
That whole time where were you

New life, who dis?  
I don't reminisce  
New life, who dis?  
I don't reminisce

Oh, the hype trains taking off  
That was the final stop  
We'll run it til we're out of track  
I'm done with all the cons  
I'm done with all the frauds  
Done with all the imposters pp

At the moment I'm gaining some steam  
A stranger arrives and knocks on my door  
He congratulates me and suggests  
That I should let him come and sit aboard

New life, who dis?  
I don't reminisce  
New life, who dis?  
I don't reminisce

Cuz I've been low before  
And I know, I'll be low again  
All aboard while we descend  
Who's down to ride?

New life, who dis?  
I don't reminisce  
New life, who dis?  
I don't reminisce
