

# One On One

Unlike Pluto

You love me when I'm down  
Aim your weapon, make a sound  
And you can't say bye when it's one on one  
You love me when I'm down  
Aim your weapon, make a sound  
You can't say bye when it's one on one  
Life without you  
Life without you  
Who  
Who can make it out alive?  
Life without you  
Life without you  
Who  
Who can make it out alive?  
Who can make it out alive?

When you think that your mind's at war  
But your heart can't settle the score  
And when you fear the fight and  
Nothing to hide it  
Venom in the sky  
Antidote or die  
Raining venom  
All the venom  
Come and get 'em  
Hell that sent 'em

You love me when I'm down  
Aim your weapon, make a sound  
And you can't say bye when it's one on one  
You love me when I'm down  
Aim your weapon, make a sound  
You can't say bye when it's one on one  
Life without you  
Life without you  
Who  
Who can make it out alive?  
Life without you  
Life without you  
Who  
Who can make it out alive?

Who can make it out alive?

Drop me in  
The edge of your heart  
The fall is in the start  
Two wings ripped apart  
Raining venom  
All the venom  
Come and get 'em  
Hell that sent 'em  
Come and get 'em  
Hell that sent 'em  
Come and get 'em  
Hell that sent 'em

You love me when I'm down  
Aim your weapon, make a sound  
And you can't say bye when it's one on one  
You love me when I'm down  
Aim your weapon, make a sound  
You can't say bye when it's one on one  
Life without you  
Life without you  
Who  
Who can make it out alive?  
Life without you  
Life without you  
Who  
Who can make it out alive?  
  
Who can make it out alive?
