

Overstimulated

Unlike Pluto

I am overstimulated
I am pulled in ten directions
All of my nerves are on fire
Cause I'm overstimulated...

Open me up
Let my thoughts escape my mind
Drown in waves that crash into my eyes
If my nerves could speak
They would scream for sacrifice
Some things you can't run or hide from

I am overstimulated
I am pulled in ten directions
All of my nerves are on fire
Cause I'm overstimulated...

Too much to see
Too much to hear
Everything around me
Everything around me
If my nerves could speak
They would scream for sacrifice
Some things you can't run or hide from

I am overstimulated
I am pulled in ten directions
All of my nerves are on fire
Cause I'm overstimulated...
