

Rip Me Apart

Unlike Pluto

Been through hell and back
My failures launched attack
It changed me
It changed me

I fall a million times
I fail a million times
Fill me with doubt but I will always remember

I've been through so many
Storms thrown at me
So rip me apart again
Rip me apart again
I've been through so many
Storms thrown at me
So rip me apart again
Rip me apart again
Rip me apart again

Sink your teeth deep into me
I like success dripping in blood

I fall a million times
I fail a million times
Fill me with doubt but I will always remember

I've been through so many
Storms thrown at me
So rip me apart again
Rip me apart again
I've been through so many
Storms thrown at me
So rip me apart again
Rip me apart again
Rip me apart again

Sink your teeth deep into me, Ah
Your teeth into me
I reached the top
When dripping in blood
If you're looking for me
Than just remember that

I've been through so many
Storms thrown at me
So rip me apart again
Rip me apart again
I've been through so many
Storms thrown at me
So rip me apart again
Rip me apart again
