

## Riptide

Unlike Pluto

You hit me like a rip tide  
But I never noticed cause you always kept it under disguise  
Lifted up the curtain let me see what was on the inside  
All of the lies and deceit  
An ugly mess you created in me  
Something that you knew I could never clean  
I'll handle it someday

So hit me with a (the) riptide  
If that's the way you wanna say goodbye  
My Anger's been on standby  
So hit me with, hit me with a rip tide

But hey, it was an honest mistake  
We'll go our separate ways  
We don't need to dig our own gravestones  
Push each other out till we're alone  
These fights are taking on the same tone  
Oh it's worse if I stay  
Cause you changed my personality  
I'll close the door behind me

So hit me with a riptide  
If that's the way you wanna say goodbye  
My anger's been on standby  
So hit me with, hit me with a rip tide

I have already moved on  
To someone who won't do me wrong  
I hope that one day you can see  
The villain you are with me  
Release your hold  
I'm the one in control  
If the riptide comes today  
You're the only one that will wash away

So hit me with a riptide  
If that's the way you wanna say goodbye  
My anger's been on standby  
So hit me with, hit me with a rip tide
