

## Run, Bobby, Run

Unlike Pluto

Because you run run run, Bobby run before the cops get on your  
case  
Say you don't know what you've done but it's time we all escape

Because it sure was a good time we had our way  
But now, it feels like, it's gone away

We can't stay  
We can't stay  
We can't stay  
We can't stay  
We can't stay

Cause if I was, if only I was taking the next flight over  
I would stand tall and fight back  
And I know that you are, waiting for the sun  
And I know that they won't stop until we're gone

Because it sure was a good time we had our way  
But now, it feels like, it's gone away

We can't stay  
We can't stay  
We can't stay  
We can't stay  
We can't stay
