

# Sabotage

Unlike Pluto

Ooh, something got me shaking  
Feel the seismic rush rock my bones to dust  
Ooh, can't wait for intermission  
Lost inside a screen that's not reflecting me

'Cause I am on another wave  
My frequency can radiate  
Burning every bridge I ever known  
And I always stand too close

Sabotage all my dreams  
Sinking like a submarine  
Light it like it's gasoline  
Stir the embers, no surrender

Cool, think I need a intervention  
Show me the light  
Please don't make it too bright

And put me on a different wave  
And I don't wanna radiate  
Burning every bridge I ever known  
And I always stand too close

Sabotage all my dreams  
Sinking like a submarine  
Light it like it's gasoline  
Stir the embers, no surrender  
Sabotage all my dreams  
Sinking like a submarine  
Light it like it's gasoline  
Stir the embers, no surrender

Is it a trophy or a tomb? Punch through, punch through  
And no matter what you do, get through, get through  
Like agave when it blooms I, just gotta wait and spread my roots I  
I need another point of view ay, lift my head above the gloom ay

Ooh, body got me tripping

Sabotage all my dreams  
Sinking like a submarine  
Light it like it's gasoline  
Stir the embers, no surrender  
Sabotage all my dreams  
Sinking like a submarine  
Light it like it's gasoline  
Stir the embers, no surrender
