

Slingshot

Unlike Pluto

Slingshot, bring me back to the top
Slingshot, take my heart, don't throw it back

I'm in for the ride now don't take me back
Oh no don't pull me back
It's wrong but I wanna see
What this means to me
What this means to me

I'm not sure of everything
I want something different
I can feel the fear in the air
Ready for the chaos now
I want something different
I can feel the fear in the air

Slingshot, bring me back to the top
Slingshot, take my heart, don't throw it back

I'm tryin' to see what you see in me
Is it like all of your dreams
I hope you never forget
That I jumped into this
If this all crashes within
I know I'll never forget
I know I'll never regret all of this

I'm not sure of everything
I want something different
I can feel the fear in the air
Ready for the chaos now
I want something different
I can feel the fear in the air

Slingshot, bring me back to the top
Slingshot, take my heart, don't throw it back
