

Why oh why oh why  
Is it always goodbye  
Travel back in time  
Hoping I will find  
All the little moments  
Between you and I  
That led your heart  
Into the starry night  
Why did you leave

Why did you leave me alone  
Why did you leave me alone  
Why did you leave me alone

Your laughter's in the air  
I feel it when you're not here  
You left everything with me  
So why am I incomplete

I wanna find the moments  
I didn't recognize  
I wish had more pictures  
Of you and I  
Why did you leave

Why did you leave me alone  
Why did you leave me alone  
Why did you leave me alone
