

The Underground

Unlike Pluto

Underground
Underground

We're the underground
We're the lost and found
Never see the day
While we hide away (hide)
Soft spoken like a gun at the top of my lungs
We're the underground
We never die

If you don't mind me
I won't mind you
The game is for two
Your first move
Igniting
I'll never lose
Lost hypocrites, lies never quit
Avoiding the truth
So delicate, hard to predict
So out of the blue

We're the underground
We're the lost and found
Never see the day
While we hide away (hide)
Soft spoken like a gun at the top of my lungs
We're the underground
We never die

We never die
We never die

I've seen it, I mean it
I found the truth
They try to contain it
We set it loose
I'm sick of it, we're infinite
It's time to move
We're not the winners
But we'll never lose

We're the underground
We're the lost and found
Never see the day
While we hide away (hide)
Soft spoken like a gun at the top of my lungs
We're the underground
We never die

We never die
We never die

We never die
