

# Utopia

Unlike Pluto

There's no you in my utopia  
There's no you in my utopia

Dream of another world  
I am spinning in swirls  
Happiness is the pearl  
Baby I'm alive, baby I'm alive

Picture it in my mind, picture it in your mind  
Erase the pain, erase the pain  
Fall like the rain, fall like the rain

Oh as the time skips by, skips by  
Oh as the time skips by, skips by

There's no you in my utopia  
There's no you in my utopia  
It hurts me to say that the truth remains the same  
I don't see you in my utopia

Oh look what I created in my world of dreams  
It feels complete with you missing, missing

Picture it in my mind, picture it in your mind  
To add in the pain, erase the pain  
Where is the rain, where is the rain

Oh as the time skips by, skips by  
Oh as the time skips by, skips by

There's no you in my utopia  
There's no you in my utopia  
It hurts me to say that the truth remains the same  
I don't see you in my utopia
