

We Sing Along

Unlike Pluto

Automatic
Illusion of control
So enigmatic
Buying everything you sold

Who's to blame
I don't know
Are we both stuck in the same hole
No escape
Nowhere to go
From here, and it goes

On and on and we sing along
On and on and we sing along
Carousel moving on
The circus never stops

Ohh, entertain us
We are sick, medicate us
I feel like I'm eyeless
And I feel all the broken smiles inside of me

Fill this dream with tales of screams and I'm lost in reality, ohh
Vultures fly around picking us one by one

Who's to blame
Maybe me
Am I stuck in a world that I feed
No escape
Nowhere to go
From here, and it goes

On and on and we sing along
On and on and we sing along
Carousel moving on
The circus never stops

Who's to blame
Maybe me
Am I stuck in a world that I feed
No escape
Nowhere to go
From here, and it goes

On and on and we sing along
On and on and we sing along
Carousel moving on
The circus never stops
On and on and we sing along
On and on and we sing along
Carousel moving on
The circus never stops
