

Whisper To Me

Unlike Pluto

Whisper to me what you scream in your head
Whisper, whisper, whisper

Pressure that keeps growing inside forever
It's hard to keep it all together
Open up and let your demons fly
They swarm the room, can't believe your eyes (eyes, eyes, eyes)
Remember you can

Whisper to me what you scream in your head
Scream, scream, scream, scream
Scream in your head
Whisper to me what you scream in your head
Whisper, whisper, whisper

You can never outrun the voices
That bounce around in your mind
And control all of your choices
Let me in those diamond eyes (eyes, eyes, eyes)
Remember you can

Whisper to me what you scream in your head
Scream, scream, scream, scream
Scream in your head
Whisper to me what you scream in your head
Whisper, whisper, whisper
Whisper to me what you scream in your head

Oh, baby, your lips are sealed
So, let it out tonight
Oh, baby, your lips are sealed
So, let it out tonight

Remember you can
Whisper to me what you scream in your head
Scream, scream, scream, scream
Scream in your head
Whisper to me what you scream in your head
Scream, scream, scream, scream in your head
