

Depend On Me

UnoTheActivist

(Keep it up, Sharkboy)

Three X pills to the face, they thought I was numb or sumn'
Little taste of Molly got her raving like B-
More, put 'em in a Drac' then hunt 'em
If you never leave, don't come
I could see that you want me, oh
Hope you catch the memories, oh
'Cause we could never-ever be, oh
'Cause I'm a dog like Vick
You can stay if you join us like Nick
I'm still tryna find my heart, ten minutes
You can find my soul, then I found my bitch
Oh no, depend on me
Oh no, depend on me
Oh no, it cannot be
Oh no, it cannot be

Yeah (What?), hoping I make it clear
I heard it was love in the air
Or you'll take your last breath, oh
Spinning the block with myself (Skrtrt)
Creeping myself on the shelf (Yeah-yeah)
I'm on the corner with the stealth (Yeah-yeah)
Demons that could be in the air, uh
High, I'm talking to God, I'm on Percocet, it's my bond, um
Really don't know what you saying to me, I just give you a nod off
He living a façade, get clapped like a round of applause
Tell me she love me, I said, "That's hot"
I wanna get lit running up my boys
I wanna get lit running up with my girls too
She wanna have a little girl too
That's just a little dream of mine
I ain't got nobody to give the world to
