(Shoot through your car door, shout-out to Cardo)

(Uno, I killed it)

Uh

I popped me some 'shrooms, now I'm having questions
Third eye open, universal questions
I'm in the ocean, I face me a blunt
Thinking 'bout all of the feelings I fester
The water real clean and the sky real blue
Perc' just kicked it, now I'ma hit the deck
You taking some trips, but only domestic
Connecting the blocks, they're calling it "Tetris"
My ho is real sexy, yeah, yeah, yeah, do that, do that, do that
She live in a mansion, yeah, yeah, do that, do that, do that (Dig)
Extended the stretch, yeah, yeah, yeah, do that, do that
I wish you niggas the best, yeah, yeah, yeah, do that, do that, do that

You not my kid like Billie Jean
Back in the day, used to rock Billy jeans
This is that purp' or that red, no green
You will get rained if I tell 'em you're green
I peeped the block, I scoped the scene
You leave the house every day for work at three
I'm watching, I know where you're hiding your keys
Hop in your bed with your bitch and I grease
Snuck through the back, she ain't know it was me
Take off the watch, chain, rings
Take off the Gucci, Prada, Céline
Your bitch say she fuck really good off a bean
We in the trap making plays, Steve Nash
Yeah, they wasn't hot, they're going out fast
I just might place in the Backwood a half
I'm fighting the drank, police on my ass

I popped me some 'shrooms, now I'm having questions
