

# Do Too Much

UnoTheActivist

What the wrong way?  
Ain't no right or no wrong way, it's the need way  
When you need something, or you got to have something  
And one way you gon' get it right then and there  
It ain't right no way  
Oh (Fire in this ho)  
Phew

Tell me I do too much, tell me I do too much  
Tell me I do too much, they tell me I do too much  
Too much, too much  
Diamonds inside of the rough, a diamond inside of the rough  
I got a Glock in the glove compartment, a sniper on top of the roof  
I give my heart to the dearly departed, but me? I hardly get love  
You told me you was gon' hold me down, I guess it's time to give it up  
Yeah, yeah  
Yeah, yeah  
Yeah, yeah  
Yeah, yeah

We waiting on PayDay, we grow a bag, we grow us some bag-bags  
She tryna crash like mayday, so I'm cutting these niggas off, it is a melee  
Switch on the Glock, gon' hit him, gon' make that little boy do the nae-nae  
My younging'll kill you, I buy him Cha-ney-ney'  
Became a criminal, try me I'm on your yard just like a garden gnome  
Ain't have no big brothers, my friends was my brothers just like it's a group home  
Putting my name on the Styrofoam, I'm putting my pain in the Styrofoam  
Asking me questions, I'm just nodding off  
You know what type of time I'm on  
Got me a condom, still mad I put the condom on  
After we fuck, can you hold me long?  
Hermès drip with the Balenciagas on  
I got the Greg with the Junya Watanabes on

Tell me I do too much, tell me I do too much  
Tell me I do too much, they tell me I do too much  
Too much, too much  
Diamonds inside of the rough, a diamond inside of the rough  
I got a Glock in the glove compartment, a sniper on top of the roof  
I give my heart to the dearly departed, but me? I hardly get love  
You told me you was gon' hold me down, I guess it's time to give it up  
Yeah, yeah  
Yeah, yeah  
Yeah

I'm finally prepared, know it's been a minute, I'm finally prepared  
Them times I failed, knew I would prevail, only time can tell  
Doing fine myself, why they hating? Tryna wish me to hell  
Yeah, throw in the change, they wishing me death, I'm wishing them well  
I'm through with the lame shit, I'm killing if all else fails  
Yeah, that energy change quick, watch how it all unveils  
She said I change quick, and she need time to heal  
I ain't change, you the one that changed bae, I'm just being myself  
Tell a nigga he speak down on my name, it's a horror like Amityville  
The Bible say that it's a time to kill (What?)  
I go idle 'fore I sign yo' deals

They say I'm psycho, I was being real

Tell me I do too much, tell me I do too much

Tell me I do too much, they tell me I do too much

Too much, too much

Diamonds inside of the rough, a diamond inside of the rough

I got a Glock in the glove compartment, a sniper on top of the roof

I give my heart to the dearly departed, but me? I hardly get love

You told me you was gon' hold me down, I guess it's time to give it up

Yeah, yeah

Yeah, yeah

Yeah, yeah

Yeah, yeah
