Double Back

UnoTheActivist

Dig, dig
Ooh
(JULiA)

What? What?
Thought it was trouble so I had to double back
I got the stick and it hang out the book bag
You know we came from the land where they cook crack
Told them if I get ahead, I won't look back
Now go ahead, I'ma truck that
A bitch in her face, she be like "What you lookin' at?"
I get the bag, bitch, we step over hood rats
Bitch, I'm ahead of y'all, why would I look back?
Y'all looking back, nigga, like what was you looking at?
I'm so ahead of y'all, why would I look back?
She had the meds in her head, she be lookin' back
Turn me into salt if I ever do look back (Ooh)
Turn me into salt if I look back
Eyes in the back of my head, I won't look back
That stick on my body, the fuck is you lookin' at?

Yeah, I know how to move, I come from where they hood
I pity the fool that try to play me like a fool, jack
I'm moving real smooth, I feel just like I'm Michael Jack'
I get real high, I be like, "Where my body at?" (Yeah)
You know I got an invisible diamond set
Pull up on your bitch in convertible Audi shit
I like how you smiling, your aura is popping, bih'
The way that you drip on these bitches astonishing
I'm the professor, bitch, show me your knowledge
Know that that head at the top of the college
That stick on my lap feel just like a Birkin
She told me she need that dick more than oxygen
I need that lean-lean-lean by the gallon
I know that it's late night, Jimmy Fallon
I know that it taste right, gotta have it
This not like addiction, more like bad habits

What? What?
Thought it was trouble so I had to double back
I got the stick and it hang out the book bag
You know we came from the land where they cook crack
Told them if I get ahead, I won't look back
Now go ahead, I'ma truck that

Bitch, I'm ahead of y'all, why would I look back?
Y'all looking back, nigga, like what was you looking at?
I'm so ahead of y'all, why would I look back?
