

She wanna smoke all of my weed  
Take you to Pound Town  
Looked at her, she looked at me  
And say "You get around town"  
Brand new house, new TV  
Came with surround sound  
Take yo shot, I'm gonna take my shot  
And catch you on a rebound  
Yeah, yeah  
Don't do none, don't say nothing  
Just wanna be around  
Break up to make up, we break up to make up  
Then we made out  
Put the munyun in my hand and don't use PayPal

Blood scars on her eyes from crying all the time  
My brother got too high, had to stop him from dying

I seen her in the jungle, she was talking to a lion  
And they see me pop my shit with these factory diamonds  
Yes, more stones on my neck than a rock climber  
No, this is not my first time, I'm a very big timer  
Astrology bitch told me the stars are aligned  
But I'm probably with Lil' Troy in Double R getting high  
Yeah, yeah
