Hey

Hey, motherfucker, call me back ASAP, I got your fucking shoes
So just give me a call whenever you can, I love you

You told me how much you fuck with me
Hope you know I see through that
You told me you was in love with me
I know, I know that
The feeling, can't control that
You wish that you can go back
I know that
I know that
She asking, "Where your soul at?"
I'm asking where her clothes at
I wish that you could go back

Nobody gon' text you how I text you
I did about everything just to sit next to you
I know that she love me, got that Birkin bag, but my sidepiece got that Birk
in bag for you
For you, got it all for you
You had your own bag, an intellectual
My city, all the hoes gon' know about you
We gon' X these hoes out
And then fall in love (Fall in love)
I'll be sure that that girl gets all the diamonds and pearls
Wanna know how far that we will go from here
Wanna know how far they interfere
Wanna know how far, I put one in your ear
Wanna know how far, but we'll never know now

You told me how much you fuck with me
Hope you know I see through that
You told me you was in love with me
I know, I know that
The feeling, can't control that
You wish that you can go back
I know that
I know that
She asking, "Where your soul at?"
I'm asking where her clothes at
I wish that you could go back

Baby, come back, where you goin'?
Come back, where you goin'?
Little bit toxic, don't know it
I guess you gon' go with the flow then
Multiple hearts broken
Proceed with caution
She told me that 12 kicked the door in
Told her, "Hide all the money in the floor then"
I got some more hoes I flew in
Five in the morning
I'm leavin' your body fallin'
"You can come with me, we'll be gone tomorrow"
What she said to me, but I don't believe it

You told me how much you fuck with me
Hope you know I see through that
You told me you was in love with me
I know, I know that
The feeling, can't control that
You wish that you can go back
I know that
I know that
She asking, "Where your soul at?"
I'm asking where her clothes at
I wish that you could go back
