

# No Limits

UnoTheActivist

So you thought life would be easy  
Life ain't ever really easy  
It's so hard for me to please  
Think my heart is on my sleeve  
Think it's time for me rebirth  
I want everything I deserve  
Cup of tea, I need my peace first  
Fuck it man I might just leave Earth  
Damier linen, I kick in my pent  
And I'm whipping that dope in Givenchy  
Walk in the room and the bitch on my linen  
I told that little bitch my little business  
Lean spilling out of my kidneys  
Before I die, bitch I ask for forgiveness  
I cannot live my life timid  
There is no fear when you live with no limits

I add some juice with my drugs, finessing through Atlantic city  
Yellow wrist, arm around my bitch and now she twice as pretty  
Can't forgive these niggas foolishness, pray the lord be with me  
with me, that's my 30 piece, I'll stomp you out in cleats  
Oh these ain't no Robin Jeans, these just my robbing jeans  
Can't trust in you, fuck with you, you on the rival team  
Xan with the lean just a boost so I think, Xan and the Xan just a boost so I  
drink  
Girl of my dreams, only see her when I dream, got a real down bitch

Dior shades on my face, I can't see at all  
Comme des Garçons, nigga we don't shop in malls  
For the price cost, bitches love to blow our balls  
Baby suck me off, I house lick her when she gone  
Back in high school I had everything you want  
I was in your house too, taking what I want  
I could fuck your spouse too, and even your mom  
I'm running up the check, you just tread-milling on the lawn  
I skeeted in her face and told that bitch don't be alarmed  
Check my neck and arm, bitch they full of lucky charms  
Be forward if you want, bet that weapon caught your arm  
Shoot him in the arm, now he shaking like  
You don't want a problem, cause my niggas solve them  
206 Taliban the central is an army  
U to the A, you could meet your fucking fate  
And I put that on my mamma, I ain't ever been a fake

I add some juice with my drugs, finessing through Atlantic city  
Yellow wrist, arm around my bitch and now she twice as pretty  
Can't forgive these niggas foolishness, pray the lord be with me  
with me, that's my 30 piece, I'll stomp you out in cleats
