You better not play with this shit

You better watch how you be moving your lips  
I know I'm the one, I ain't new to this shit  
I want some lean, it's okay if you stress  
You talk down to me then you making the list

Try running off on me, remember the list  
I got him, I'm crossing his name off the list  
Yeah I got him like my name was Spotem  
Then bought me a Fanta, lean in the bottom  
Be calling my moves, you would think that I taught 'em  
I told a youngin to shoot, you would think I'm Coach Carter  
Stomped him out with his chains on like walking on water  
I tried to keep the with her, she taking it farther  
Try being the Shyne, I'm trying to spark 'em  
These bitches so earthly and I am a Martian  
Show me the way, I know you can go harder  
I got some bands, you got cash, we can bargain  
out  
We starting  
I got some money up off the neck like  
I put the Ricky boots right in his chest like a Spartan

You better not play with this shit  
You better not play with this shit  
You better not play with this shit  
You better not play with this shit  
You better watch how you be moving your lips  
I know I'm the one, I ain't new to this shit  
I want some lean, it's okay if you stress  
You talk down to me then you making the list

Stepping on hoes, I beg your pardon  
In Fear of God, only fear is God  
He green so I make him run like Forest  
My ho keep a bag like Dora Explorer  
Yeah, I want more  
Play with this shit, be playing with God  
I ain't said nothing to him, ain't saying a lot  
(Uno I killed it)

You better not play with this shit  
You better not play with this shit  
You better not play with this shit  
You better not play with this shit  
You better watch how you be moving your lips  
I know I'm the one, I ain't new to this shit  
I want some lean, it's okay if you stress  
You talk down to me then you making the list
