

## Repent (Next Move)

UnoTheActivist

(Raybands)

Uno, I killed it

(Dream, this shit go dummy)

Sitting by myself thinking 'bout my next move  
Should I keep the piece? Should I keep the tool?  
Everybody told me they tryna see what I'm 'bout to do  
That is not the move and I got a point to prove  
I got all the truth in this baby bottle too  
I be with my goons, they won't hesitate to shoot  
Life just hasn't changed for a young boy like you  
But the chance that it can change is what you wait to view

Okay, true

Different views

Tryna see how I'ma angle this tool

Leave you on a shirt, I'ma leave you on the news

I know how it feels when these niggas change on you

But no, it's not the same, yeah, this something I know

You don't be at my shows

Where did I go wrong? Where do you belong?

Said I will give you my heart, but it is made of chrome

Ayy, wake up in the morning thinking 'bout my next move

I just sit and plot, I want guap, I want a lot

No, I cannot stop, you think I'ma worry less?

Niggas stop to wonder why I distance myself

I don't think you pussy niggas really can help

If we get into it, I am toting straps in the air

When we got into it with them other niggas, you weren't there

Now I'm thinking about all the things I'd say if you was here

Sitting by myself thinking 'bout my next move

Should I keep the piece? Should I keep the tool?

Everybody told me they tryna see what I'm 'bout to do

That is not the move and I got a point to prove

I got all the truth in this baby bottle too

I be with my goons, they won't hesitate to shoot

Life just hasn't changed for a young boy like you

But the chance that it can change is what you wait to view

Truly, if I didn't have support from you guys and if I didn't have the people that truly believed in me

I would be nothing and I'm, I'm aware of that

And I've gone through my fair share of destruction and, and pain in the process

To get where I've gotten and I, and I know that anything is possible
