Bitches ain't shit
Now, when these hoes get horny, niggas die
Hoes get horny, niggas die
Watch, every time, every funeral you go to
It's a bitch that was horny the night before
So you need to start checking these bitches
(Raybands)
(What, what, what, what?)
(Get that bag and make 'em mad)
(Get that bag and make 'em mad)
(Get that bag and make 'em mad)
(Uno, I killed it)

Baby, you want someone, one
Let's have some fun, tonight-night
Baby, you want someone, one
Let's have some fun, tonight-night

Have my heart, can't have my heart
Have my heart, can't have my heart
People play like they in love with you just to they tear that shit apart
They take Ls and I take Ws because I'm playing my part
She told me she want my nut, I told her I play it smart (Tonight-night)
I got diamonds on my pinky ring, can shine all in the dark
I'm gon' take your ho and paint her face and call it work of art
Before niggas try to take my drip, I tell you will not make it far
They be like, "I take a drug". I be like, "Where do I start?" (Tonight-night)
I got big plan, bad plans, bad mans
Diamonds dance, my diamonds dance, diamonds dance
I'm a big man, big, I'm in the bag, man
Talking 'bout forty thou' on my wrist, I am Ben 10
Forty thou', hit the bitch, get her transplant
She wanna nod off, sorry miss, I got other plans
Ain't no lights on, diamonds hit, come from the Motherland
She wanna nod off, sorry bitch, go to another man (She said)

Baby, you want someone, one
Let's have some fun, tonight-night
Baby, you want someone, one
Let's have some fun, tonight-night
Baby, you want someone, one (Get that bag man, get that bag man)
Let's have some fun, tonight, night (Get that bag man, get that bag man)
Baby, you want someone, one
Let's have some fun, tonight-night

I get in that bag and make 'em mad
Get in that bag and make 'em mad
Baby girl say that she wanna spend the night, I had to leave her sad (Tonight-night)
Walk around here, look like a thotty-body 'cause she ain't have a dad
Walk around here, won't fuck with me and my partner, I'm not into that (Tonight-night)
All that hate on the Internet
Get that game, we getting the bag
They screaming my name, you listen to that
They taking your chain, you listen to that (Tonight-night)

I give on the gang, it's getting her wet
I give up the fame, they give me some racks
I get up in range, I get up and aim
Then forget they came like Men In Black (Tonight-night)
I get the safe where the millions at
I pull up and air it out, then pulling back
Hit your ho from the back and her hair, pull it back
Know I make up for whatever you lack
She wanna kick it, I told her, "Relax."
I got up and, listen, I'm coming right back
She ask, "Do you love me?" It's not even that
I need the bitch to get up the racks
I need a bitch who got money to match
These tricking ass hoes ain't got nothing to hatch
Leave her on seen, she was fast
These hoes get dangerous, watch your sack
And she lying, put the hell in the cat
I double my cup, what the hell is in that?
Turn a opp into a pack, turn his bitch into a snack

Let's have some fun, tonight-night
Baby, you want someone, one

Baby, you want someone, one
Let's have some fun, tonight-night
Baby, you want someone, one
Let's have some fun, tonight-night
