You doing, babe (What you doing, babe?)  
Yeah (What you doing babe?)  
Yeah (What you doing?)  
Hmm, yeah, yeah (Uno, I killed it)

If I can take the time to just go back  
Throw away some of theses slime-ass niggas, no throw back  
Take a picture of the world for you girl, no Kodak  
I love you and I just thought that you should know that  
But it don't mean that I lied, you know I was telling the real  
I was toting steel, through the words I know you feel  
And I know you know how it feels to be hurt for real  
I know 'cause I can see the sensitivity in them tears  
Don't believe everything you see and everything you hear  
And even though she see me, she don't comprehend  
Do you fuck with me for real, or you play pretend?  
I got real deal stripes like a fucking pin  
Flexing cars with my niggas out that fucking camp, candle lit inside my head  
They handing out that time to him, take time to look within  
I wonder when you gon' get a sober judge 'cause he been screwing us  
Lately, all these niggas move like they computerized  
Yeah, program, red or blue, choose a side, uh  
Yeah, I chose my own destiny, I'm feeling cool inside  
And I think her name Destiny, she a cutie pie (Yeah)  
She's a real trap bitch, moving kis and pies (Yeah)  
If I die today, tell me, babe, would you be surprised? (Yeah)  
Or would you never fix the pain and get lost in your mind  
And I knew niggas changing ways and getting off in these lies  
I'm engulfed and them, the flames that's burning deep inside  
I told I was hard to tame when you can't tame the beast, uh  
Money through the green dot just so the gang can feast (Dig)  
Yeah, money in the jet paying court links (Dig)  
Yeah, one fell out and one fell in the fucking streets (Dig)  
Yeah, move discrete  
Look me in my eyes and see pain, I don't weep (Bitch)  
If they threw dirt on my name, I don't speak (Shh)  
If he missing the next day, I won't speak (Shh)  
Yeah, I broke off the leash  
Yeah, now the new chain double C  
Yeah, I know that the hating won't cease, yeah  
I did not have me a reason, huh  
I had to make me a reason, yeah  
They hate me, but they hated Jesus, yeah  
I'm somewhere where you need a visa, yeah  
I'm booted, now I'm wearing Yeezys, yeah  
In front of the wave, it's Jesus, yeah  
I'm Gucci but I fuck with Jeezy, yeah  
These sisters they got on their knees  
On the block like I am Shaq Diesel  
It's the reason I hate for you people  
I ain't sorry, don't feel for you people (Dig)  
I was still, I would kill for my people (Dig)  
She a Taurus but act like a Libra (Dig)  
I was toting that drip on you people  
Yeah, what's your name, baby? I wanna know if we can kick like Fifa (Dig)  
No stabbing me in my back, keep a smile on my face like Mona Lisa  
I was swiping, no swiper, just take your CPE (Yeah)

Treat my nigga right, now he was on CNN

Yeah, yeah

Yeah

(Uno I killed it) Yeah
