

# Closer

Unprocessed

When we first started out it's already been told  
That I'm a bully  
The stress and the smoke the jack and the coke  
Got mom fucked up truly

I entered the room and had you in sweat  
Don't wanna get bullied  
The streets in the small town remind me of dad  
I wish he could see me

Oh, I wish he could see me  
I wish he could see me  
Don't you mess with me

I'm the kid that makes you run  
So cry me a river  
I make you my victim just for fun  
And leave you in shivers  
I'm the kid that makes you run  
So cry me a river  
I make you my victim just for fun  
And leave you in shivers

I leave you in shivers  
I leave you in shivers

I've been talking to mom, but she's no therapist  
When I went to bed she never gave a kiss  
She was afraid I could taste the drugs from her lips  
I can relate cause the devil is hard to resist

I wish he could see me  
I wish he could see me  
Don't you mess with me

Don't you mess with me...

I've been talking to mom, but she's no therapist  
When I went to bed she never gave a kiss  
She was afraid I could taste the drugs from her lips  
I can relate cause the devil is hard to resist

(I'm the kid that makes you run  
So cry me a river)  
I make you my victim just for fun  
And leave you in shivers  
I'm the kid that makes you run  
So cry me a river  
I make you my victim just for fun  
And leave you in shivers

I leave you in shivers  
I leave you in shivers
