

Rain

Unprocessed

Saw your eyes
Spring reprised
First mild night
In such long time
You and I
Streets in light
Make me feel like
I'm divine

Rain falls and
So the night
One more time

Play with fire
I admired
Eyes ran dry
Now I'm so tired
It can't be
You and me
So in love but still not free
Stare at screens
No replies
Can't you stand right next to me?
Hold me tight
Until the birds start to sing

Rain falls and
So the night
Rain falls down
One more time

We shouldn't be together
But these sins taste so bittersweet
This shouldn't last forever
Your warmth is what I need
So bittersweet

Rain falls and
So the night
Rain falls down
One more time
Rain falls and
So the night
One more time
