

Scorpio

Unprocessed

Lost you in a hot purgatory
Your soul on the ocean, no ferry
Can't forget what I don't know
Things have changed so much since you're
The ocean, can you wake up and guide me?

Do you feel with me?
Standing besides
Those who have always lived and
Felt with me
You're not hurt
The pain that you left can never go away

Do you feel with me?
Do you feel with me?
Forever, this page of my diary's empty

Saw you in a deep dream you showed me
Your soul on the edge, I'm sorry
Can't we be forever young
I see scratches on your lunges
The ocean, would you take good care of me?

Do you feel with me?
Standing besides
Those who have always lived and
Felt with me
You're not hurt
The pain that you left can never go away

Do you feel with me?
Do you feel with me?
Forever, this page of my diary's empty

Far away, far away
Snatched from his hands
In your room, where I grew up

Far away, far away
But I pray you're fine
And your picture's placed
Right next to mine

Far away, far away (Far away)
Far away, far away

Do you feel with me?
Do you feel with me?
Do you feel with me?
Forever, this page of my diary's empty

Far away, far away (Do you feel with me)
Far away, far away

Do you feel with me (far away, far away)
Forever, this page of my diary's empty
