

# The Game

Unprocessed

Tell me what is right  
When the moon shines bright  
And the sun has turned to ice

When the city lights  
Are the only guide  
And the Universe collides

Don't you worry 'bout the past times  
Bad vibes, you need fast rides  
No goodbyes  
Don't you worry 'bout the red lights  
Blue lights, stop signs  
Out of sight

Tell me what you wanna feel  
Cause I am feeling  
Tell me what you wanna see  
Cause I am seeing

Let's get you to a higher place  
Take my hand to win the race

Tell me what's it gonna be  
It's all in the game  
It's all in the game  
For you

There's no way back  
When you're on the track  
And you're drifting through the lands

Every move you make  
Every turn you take  
Will make you more advanced

Don't you worry 'bout the red lights, blue lights, stop signs  
Out of sight  
And out of mind

Tell me what you wanna feel  
Cause I am feeling  
Tell me what you wanna see  
Cause I am seeing

Let's get you to a higher place  
Take my hand to win the race

Tell me what's it gonna be  
It's all in the game  
It's all in the game  
For you

Time is running fast, time is running fast  
On the clock  
Time is running fast, time is running fast  
Won't stop (time is running fast, time is running fast)

Tell me what you wanna feel  
Cause I am feeling  
Tell me what you wanna see  
Cause I am seeing

Let's get you to a higher place  
Take my hand to win the race

Tell me what's it gonna be  
It's all in the game  
It's all in the game  
For you
