

In Green Darkness

Unshine

In 1645
I met you for the first time
A spell of mystery
Dwell in your eyes
Air was dense
At song of silence
I felt alive
At spellbinding night

Five hundred years
My soul is still here
In green darkness
I feel you in me
From unknown you came
To unknown you left
Outside my time
Where I have no name

In green darkness
I can be me
In green darkness
In your kingdom
I will always be
In green darkness

I will come again
And take off your pain
I still hear
The last words you said
Is now our day
Will yesterday just fade
In an unending cycle
In a one single day

In green darkness
I can be me
In green darkness
In your kingdom
I will always be
In green darkness
