

# You Have Fallen From Grace

Unter Null

My final offer to you  
One pound of flesh  
One pound of sin  
These deeds have gone unjustified  
You entered forceful into my life

I've nothing more to offer  
While, you take more, and more, and more

I can't face the day  
You hid the sun  
And everything is dark again

You broke my heart  
Tore me apart  
You broke me down  
You broke me apart  
You broke me down  
I hope you rot
