## Until I Wake

I'm in a bad head space  
So just stay away  
While I numb the pain  
Oh, the things I say  
While we're face to face  
Have I gone insane?

Now you build your walls  
And it feels like I don't know you at all  
Lost in the dark as I run through the endless halls  
Don't just sit and wonder  
You aren't just another  
After thought when I'm alone  
Someone I can string along  
I won't ask for a thing  
Would you even listen?  
I know words will not atone  
For all the nights I've left you cold

You don't play those games  
Said I'd change my ways  
Another time and place  
A war inside my brain  
Devil in my way  
And I can't escape

Now you build your walls  
And it feels like I don't know you at all

Lost in the dark as I run through the endless halls

Don't just sit and wonder  
You aren't just another  
Afterthought when I'm alone  
Someone I can string along  
I won't ask for a thing  
Would you even listen?  
I know words will not atone  
For all the nights I've left you cold  
Romanticizing what puts you through hell  
But I would die for you and no one else

Don't just sit and wonder  
You aren't just another  
Afterthought when I'm alone  
Someone I can string along  
I won't ask for a thing  
Would you even listen?  
I know words will not atone  
For all the nights I've left you cold

Cold, so cold  
All the nights I've left you cold  
So cold  
Someone I can string along  
(All the nights I've left you cold)
