

# Forsaken

## Until I Wake

Our final destination  
No shelter that is safe  
Left behind in ruins  
With rubble for our graves  
We have been forsaken  
We cannot be saved

It doesn't matter anyway  
Just drop all the weight  
We're lost, we are stranded  
We'll never find our way  
We're going down in flames  
We've all been abandoned

We're lost, we're stranded  
We've all abandoned  
Our faith, we can't see  
With cowards pointing the way  
There's nothing  
No meaning, no point  
To live, we're empty  
They've taught us to love our shame

We are empty  
We can't be saved  
We are the broken  
We can't be fixed

It doesn't matter anyway  
Just drop all the weight  
We're lost, we are stranded  
We'll never find our way  
We're going down in flames  
We've all been abandoned  
It doesn't matter anyway

Then a stranger called out  
Are you listening?  
Your time is almost up now  
And they feared his name

It doesn't matter anyway  
Just drop all the weight  
We're lost, we are stranded  
We'll never find our way  
We're going down in flames  
(We're going down in flames)  
It doesn't matter anyway

We have been forsaken  
We cannot be saved
