

# **Marching Forward**

## **Until I Wake**

They pave their cities in gold while they just leave us for dead

A serpent sits on the throne collecting all of our debts

We said enough is enough

Let's show them civil unrest

And when our battle is won we'll decorate with their heads

Stand tall (Stand tall)

As we march forward

Guns up (Guns up)

We're infiltrating a fortress of sinister forces

We fight

And we carry these torches through the dead of night

To burn down their armory

To reclaim our kingdom

Bring death to them swiftly

Burn them to the ground

Hold them accountable

Repaint the walls red with their blood

Show all the traitors to the rope

Burn them out while we sing

Make them pay for their sins

They pave their cities in gold while they just leave us for dead

A serpent sits on the throne collecting all of our debts

We said enough is enough

Let's show them civil unrest

And when our battle is won we'll decorate with their heads

We fight

And we carry these torches through the dead of night

To burn down their armory

To reclaim our kingdom

Bring death to them swiftly

Fight

We'll carry the torches of those who have died to bring down their army

We'll reclaim our kingdom

Bring death to them swiftly

Burn them to the ground

Hold them accountable
