

Messenger

Until I Wake

I had a dream, emptiness as far as the eye can see
I felt the air around my feet but felt no ground beneath
A figment dressed in shadows, a messenger with plans for me
Is this a sign or is this just a fallacy?

Like a feeling
Deep down in my soul
I feel it reaching
Feel it pulling me in close
Intuition is
It's speaking through me
Show me how to live
I feel you with me

Tried to deny it but when I discovered inside
How much I was empty without it
I couldn't find a shred of doubt in
My mind and my soul
So much that I gained when I let go
And I know it might sound insane
But if you've been where I've been and feel the same
Then you know that it's (like a feeling)
I could almost hear the voices telling me to listen to what they're revealing
A secret beneath the surface
A light to defeat my demons
A key to complete my purpose
A life that wouldn't be worth leaving
Cause it's

Like a feeling
Deep down in my soul
I feel it reaching
Feel it pulling me in close
Intuition is
It's speaking through me
Show me how to live
I feel you with me

I feel your presence, show me what I've never learned
To kill this curse...
Messenger

Like a feeling
Deep down in my soul
I feel it reaching
Feel it pulling me in close
Intuition is
It's speaking through me
Show me how to live
I feel you with me
