

## Pressure

## Until I Wake

Pushing me up the edge, just another day  
World's foot up on my neck, I won't let it break  
Looking like the one that everybody  
Bet against  
'Til I pick the world up  
And drop it on your fucking head

Feel it inside your chest  
You know what it takes  
Tryna breathe think quick  
Here comes another wave  
That's how it goes when you livin' in a hurricane  
Head spinning from the pressure  
Make you wanna scream

I feel this weight, it falls over me  
Push back to find the answer  
What doesn't kill you makes you grow  
I won't let life, just come bury me  
Fight back, this isn't over  
What if this is where it all begins?

Knocked down, to the ground I went  
I got back up on my feet then I got rocked again  
I got back up on my feet now watch me  
Block this shit, two step cock back ayeo blaow that's it c'mon  
I feel the animal inside of me showing teeth  
Once this cage opens I know there's no going back

I feel this weight, it falls over me  
Push back to find the answer  
What doesn't kill you makes you grow  
I won't let life, just come bury me  
Fight back, this isn't over  
What if this is where it all begins?

What if this is where it all begins  
This life is in my hands  
What if this is where it all begins  
What if this is where it all begins

I feel this weight, it falls over me  
Push back to find the answer  
What doesn't kill you makes you grow  
I won't let life, just come bury me  
Fight back, this isn't over  
What if this is where it all begins?

What if this is where it all begins?
