

## Still Sinking

## Until I Wake

Trudging through the dirt  
Wondering why it feels like me against the earth  
All my life I've searched  
Only to realize I've paid more than it's worth

How long can I keep this up?  
I'm tired and I'm barely holding on

There's no turning back  
Now drunken knives are dancing on my wrist  
How did it come to this?  
I gave it all I had  
Now I just wait for death as blood runs down my hands

Oh  
As I black out I hear a voice say; "Don't let go"  
So close to hell  
Just take me home

How long can I keep this up?  
I'm tired and I'm barely holding on  
How long until I've had enough?  
I'm tired of living my life in the dark

Tall figures surround me  
In black hoods with no face  
They slowly approach me  
And draw swords from their sheathes

Prepare to die  
Is this what you wanted?  
A blinding light and it all goes quiet

How long can I keep this up?  
I'm tired and I'm barely holding on  
How long until I've had enough?  
I'm tired of living my life in the dark
