

Charming, beautiful mistress,  
Start a voyage in my dream  
How she slips in my mind,  
Breaks my silence with her smile?  
And I'm dancing, floating, swimming,  
Like a fool in the ocean of lies  
I've been deceived

How she looked in my eyes,  
And I can't deny her glowing path  
How her magical motions rouse an eerie feel  
In a way I just can't take no more

Siren of the night,  
Oh just sing to me,  
Will you?  
Lure me to your flight,  
Can you dance for me,  
Can you?  
Take me to your side,  
And I'll hold you tight, an' I  
Kiss your lips, it's real,  
Now I can't stand this eerie feel

Walk into my shallow tomb  
Breathe into me, life  
Slave me to your soul

Terrified,  
Yet satisfied  
To your arms,  
I surrender tonight  
Petrified,  
I realized  
I had fallen in love  
It feels so real this time

Siren of the night  
Oh just sing to me,  
Will you?  
Lure me to your flight  
Can you dance for me,  
Can you?  
Take me to your side  
And I'll hold you tight, an' I  
Kiss your lips, it's real  
Oh stay with me your my

Siren of the night  
Oh just sing to me  
Sing to me  
Lure me to your flight  
Now dance for me  
Dance for me  
Stare into those eyes  
Their inferno fire,  
Burn my soul

Sorceress dreams you steal  
I can't deny this eerie feel
