

Change Of Heart

Unto Others

I don't wanna see your face no more
I don't wanna see your face no more

Take your fill of all that's offered
Cut your hands in the falling water
Fill your heart when you come by me
Cup your hands, I cut you free

And I wonder what affects us
When I wonder what is next for us, my dear
And I wonder what protects us
When I wonder what is next for us, my love

'Cause I don't wanna see your face no more
I don't wanna see your face no more

Ember light as fire or feather
Flames to bronze that burn forever
Fallen four leaf silver clover
Precious years, that's all, it's over

And I wonder what affects us
When I wonder what is next for us, my dear
And I wonder what protects us
When I wonder what is next for us, my love

Air is time in sterling opal
Fear is small and heart is hopeful
Measured sun in small degrees
Shadows fall from morning trees

(Oh) And I wonder what affects us
When I wonder what is next for us, my dear
And I wonder what protects us
When I wonder what is next for us, my love

Oh-oh
I don't wanna feel the same way again
Oh-oh
I don't wanna feel the same way again, no
