

Give Me To The Night

Unto Others

Such a life without the light
Do you fear to lose your sight?
Well, it doesn't bother me
'Cause you don't see what I see
There's a devil in my mind
And the mysteries of time revealed
In the dark, I'm running free
Give to me your energy

Oh, give me to the night
Give me to the ages
Take me away
Give me to the night
Give me to the ages, hey-oh
The darkness is calling

I don't think of all the things that I will never be
I don't think of all the places that I will never see
And I won't get on my knees
For the people I can't please
But it seems to be so easy for you, oh
So do it by yourself

Oh, give me to the night
Give me to the ages
Take me away
Give me to the night
Give me to the ages, hey-oh
The darkness is calling my name
Again and again and again

Give me to the night
Give me to the ages
Take me away
Give me to the night
Give me to the ages, hey-oh
The darkness is calling
Oh, give me to the night
Give me to the ages
Take me away
Give me to the night
Give me to the ages
The darkness is calling my name
