

# I Feel Nothing

Unto Others

I feel the wind, the wind touches my face, once again  
I feel the fire, the fire is dying, once again

I see the earth changing, the world is amazing, but just not for me  
I see the stars shining far away, I hide my face

And if this is real, then why don't I feel anything?  
I know this is real, so why don't I feel anything?  
At all

And if this is real, then why don't I feel anything?  
I know this is real, so why don't I feel anything?  
At all

You know my name  
And all this is real, I don't wanna feel anything  
And all this is real, I don't wanna feel anything  
At all
