Nightfall

Unto Others

Energy, running free, you know not that you come to me
In your eyes the fear is wild, you carry forth your precious child
Far away and far beyond, the furthest that you've ever gone
And now you're lost, in the dying day, I will help you find your way

Ghouls in the night
The judge is out there

Nightfall, the devil's deed, give the child to me
Oh, nightfall, he came to me, set the spirit free
Nightfall, beyond the gates, you will come to me
Give me the night, I feel the time
(And the devil's by my side)

God is gone, dagger drawn, seconds now, it won't be long
Fickle faith in a false lord, and now you get your just reward
Ecstasy, cut the risks, I cut the veins inside your wrists
Trinity, the wild hunt, to claim the child inside your cunt

So cold, next to me
Your skin is cold

Nightfall, the devil's deed, give the child to me
Oh, nightfall, come to me, set the spirit free
Nightfall, beyond the gates, you will come to me
Give me the night while there is time

I see the knife (I see the knife)
Such precious life (The precious life)
You came to me (Come to me)
Am I believe this (Do you believe?)
A gift of mine (You'll be mine)
In the devil's eyes (Look at me)
I kiss time (Together)
The child dies

Take me
Nightfall, the devil's deed, give the child to me
Oh, nightfall, he came to me, set the spirit free
Nightfall, beyond the gates, you will come to me
Give me the night, I feel the time
Nightfall, the devil's deed, give the child to me
Oh, nightfall, come to me, set the spirit free
Nightfall, beyond the gates, you will come to me
Give me the night while there is time, yeah
(And the devil's by my side)
