

## Raigeki (雷撃)

### Unto Others

Singular bolt of heated light  
Grant me sight beyond my sight  
In shining sovereign  
Lift me to greater heights

War as a single spark  
Drifting off into the stars  
Then a great fire!  
If I ever get that far...

I got no fear of what's out there  
I'm a flower floating in the air

That's when I get that feeling  
This power man is floating here  
Energy is raining down upon the land  
...and when I get that feeling  
I've got the power surging on  
Raigeki  
There you are, thunderhead

Forceful and wolflike  
Howl into the blackest night  
Leader of the attack  
...and I'm never coming back

Bodies on the twisted steel  
Broken on the breaking wheel  
In the great explosion  
Can you tell me how you feel?

I got no fear of what's out there  
I'm a flower floating in the air  
...and this my war!

That's when I get this feeling  
This primal force of raging war  
Doesn't really matter  
Then tell me what's it for?  
...and when I get that feeling  
I've got the power surging on  
Raigeki  
There you are, thunder-head

Like lightning in the sky  
I strike you then I die

And then I get that feeling  
This power man is floating here  
Energy is raining  
That's when the rifle comes  
...and when I get that feeling  
I've got the power surging on  
Raigeki  
There you are, thunderhead again  
There you are thunderhead

There you are, thunderhead again  
There you are thunderhead  
There you are, thunderhead again  
There you are thunderhead
