

Sunshine

Unto Others

I can hear my heartbeat
It's keeping the time
It's all that I have
And the day washes over me
But no one is there to lend me a hand

Fear it comes in waves again
And breaks me down in the night
Lay me down to sleep my friend
Wake me up in the morning light

In the sunshine
I got a light on me
And it feels like
I'm happy to be here in the
Sunlight shining free yeah it feels like
Another day in the sun

I can see it clearly now from miles away
Like clouds in the sky
All the heroes fade away when we never thought
That heroes could die

How could I lay here and pity times gone by
Take a chance in the winds of fortune
And see it clear in the light

In the sunshine
I got a light on me
And it feels like
I'm happy to be here in the
Sunlight shining free yeah it feels like
Another day in the sun
And I'm having fun, yeah

In the sunshine
I got a light on me
And it feels like
I'm happy to be here in the
Sunlight shining free yeah it feels like
Another day in the sun
Ain't that enough?
