

They Came From Space

Unto Others

First we were ephemeral fears
Imaginary
Illusionary
Dreams
We were but leaves in a breeze
Intangible
Untouchable

Now we come from space
Now we come to take your place

Time
Given a face and a mind
To recognize
To fantasize
And breathe
We are but slaves to a need
An impulse
Indescribable

Now we come from space
Now we come to take your place
Similar symmetrical face

Now we come from space
Now we come to take your place
Now we come from space
Now we come to take your place

Your space
Replaced
Erased
