

# Temptations

UNWELL

(I've tried everything to be who you want me to be  
But I won't be your mistake)

I know you want us classified  
But we should live before we die

Do you think we could be  
Something more than a dream?  
Live out your fantasy  
Temptations  
The way you look at me  
Makes it so hard to breathe  
You know we're having all the same  
Temptations

I'm living in between your lies  
Messy lips and blood red eyes  
We wouldn't have to hide if you were mine

I know you want us classified  
But we should live before we die

Do you think we could be  
Something more than a dream?  
Live out your fantasy  
Temptations  
The way you look at me  
We're hiding in your sheets  
Ooh, I can hardly breathe  
Temptations  
I wish that you could always read my mind  
'Cause then you'd know I want you every night  
Do you think we could be  
Something more than a dream?  
You know we're having all the same  
Temptations

(Temptations)  
(You've got it all figured out  
But you're still calling me?)

I know you want us classified  
But we should live before we die

Do you think we could be  
Something more than a dream?  
Live out your fantasy  
Temptations  
The way you look at me  
We're hiding in your sheets  
Ooh, I can hardly breathe  
Temptations  
I wish that you could always read my mind  
'Cause then you'd know I want you every night  
Do you think we could be  
Something more than a dream?  
You know we're having all the same
