Wow
Yeah, I gotta need to tell you somethin'
The moment I saw you, wow wow
I couldn't deny it
My eyes were lost in instinct
Only following your movements

I guess I'm a guy too
My eyes go around at your body and face
Whoever is by your side
He is lucky
Then how about
I become that guy?

Starting from today, I will give my all
I will pull the lever

I want you be my luck
You are my jackpot
Take me to that high place
I want you be my girl
So you can see a new world
Be my luck

I'm here, look at me
Look at me with those pretty eyes
You're so perfect
If it's you, I can do anything

Oh you're like triple seven
I might not even get you even if I try
But I'm gonna keep going
If it's not you, I can't even see them

Starting from today, I will give my all
I will pull the lever

I want you be my luck
You are my jackpot
Take me to that high place
I want you be my girl
So you can see a new world
Be my luck

Don't turn away from me anymore
Baby, could you be my lucky girl?
I need you more than anything else

I want you be my luck
You are my jackpot
Take me to that high place
I want you be my girl
So you can see a new world
Be my luck

I want you be my luck
You are my jackpot
Take me to that high place
I want you be my girl

So you can see a new world
Be my luck
