

## A Little While

Upchurch

One day I won't be able to say  
Hey boys y'all ready to go rock this stage  
Two shows back to back sold out in Kentucky  
After this let's hit the town and holler at some hunnies  
One day I won't be jumpin' into no more crowds  
And this southern accent is gonna blow out  
Just like the speakers in the venues that I break right now  
But we got a while

'Cause for now I'm still young and loud  
Too damn stoned singin' in front of my own crowd  
Makin' friends with the cops, eyes redder than a stop sign  
Feelin' like country superstar from a past time  
Ain't got long, hell, none of us do  
I take a shot on stage, one for me and you  
Cheers to the young crazy way of makin' wild  
I'm one of y'all and we only got a little while  
Whoa, whoa, yeah we only got a little while

Got the tour bus cruisin' five states at a time  
Ten thousand pretty girls and a down home vibe  
As their boyfriends yell "A country boy can survive" (That's right)  
One day we won't be takin' back roads all night  
I'm cabrewin' on the river lookin' at tan lines  
But hey, I just turned 28  
So can you give ol' backwood boy a break?

'Cause for now I'm still young and loud  
Too damn stoned singin' in front of my own crowd  
Makin' friends with the cops, eyes redder than a stop sign  
Feelin' like country superstar from a past time  
Ain't got long, hell, none of us do  
I take a shot on stage, one for me and you  
Cheers to the young crazy way of makin' wild  
I'm one of y'all and we only got a little while  
Whoa, whoa, yeah we only got a little while
