

Lasso Of Gold

Upchurch

Evolvin' from drivin' in shadows
Had a dream that the world would need my glow
So why catch fights, fuck who's right
Head in the cloud think I'm with last night
Never only at the moon, ain't been low
By my lasso of gold
By my lasso of gold

Yeah, the grass is only greener on the other side
Just more tears comin' from their eyes
Even the real do not realize
That I set a fuel upon their eyes
Can't elaborate if you only ate with no labor
Can't talk about your goals with your haters
So I'd rather be worth knowin' than well know later
I'm all out of favors

Evolvin' from drivin' in shadows
Had a dream that the world would need my glow
So why catch fights, fuck who's right
Head in the cloud think I'm with last night
Never only at the moon, ain't been low
By my lasso of gold
By my lasso of gold

Cliffside, vision lookin' like starry night
From a paint stroke I built a castle made of neon lights
Pink, purple, and maybe more blue
Then an Elvis track of an a.m. tune
The static so magic, the song gotta have it
Smile in the dark in a puddles reflection
Ain't nothin' more clear than crystal
Even tears roll together no matter where they drip from

Evolvin' from drivin' in shadows
Had a dream that the world would need my glow
So why catch fights, fuck who's right
Head in the cloud think I'm with last night
Never only at the moon, ain't been low
By my lasso of gold (Evolvin' in shadows)
By my lasso of gold

So why catch fights, fuck who's right
Head in the cloud think I'm with last night
